Skills Highlights

- Ruby, Javascript, HTML, Javascript, CSS/SASS
- Rails, Sinatra, Backbone
- AWS, Ubuntu, Upstart, nginx, Capistrano
- Vim, git

Selected Experience

2009 - PRESENT

Fluid Media Inc., Hamilton - *Senior Software Developer*

- Team member and Lead developer on several client Rails applications
- Developer on the Fluid Media System, our platform for creating digital memories and print books
- Developed and maintained a phantomjs-powered Sinatra web-service used by both the Fluid Media System to produce output for printed books, as well as an unrelated carpet pattern design tool
- Extensive setup and configuration of AWS services for ruby and node.js applications: EC2, Auto-Scaling Groups, Security Groups, RDS, Elasticache, S3, SNS, SQS

2008

Hatch, Mississauga - *Web Developer Co-op Student*

- Maintained existing intranet applications in ASP.Net and classic ASP
- Developed new ASP.Net applications, including a carpooling environmental credit site that integrated with an SAP backend
- Used ETL tools to export/import data to/from SAP for use in .NET applications
